SUMMARY

Entry-level Backend Developer with 9 months of training experience in Python backend development, alongside over 2 years of experience as a Community Manager and Moderator. Strong in communication, teamwork, and community engagement, with growing technical skills in backend logic, APIs, and databases. Motivated to learn, improve, and contribute effectively in both technical and people-facing roles.

EXPERIENCE

Backend Developer (IT Trainee)

EduTech Nigeria

April 2025 – October 2025, Ibadan

- Worked on backend development using Python during IT training. Built and tested backend logic, handled basic database operations, and worked with APIs. Assisted in debugging and improving application functionality through guided projects.

Community Moderator

Sentient

February 2025 – July 2025

- Moderate discussions, respond to member questions, remove spam, block rule-breakers, and ensure the community stays organized and active.
- Cultivated a welcoming environment by organizing virtual events, facilitating member engagement initiatives, and implementing effective conflict resolution protocols to maintain positive community dynamics.

Community Manager

Waste4Meal

October 2024 – June 2025, Lagos

- Established and nurtured a strong online presence by fostering an engaged and interactive community on WhatsApp.
- Monitored member activity and engagement metrics to assess the impact of initiatives and refine strategies.
- Coordinated community events, challenges, and interactive sessions to encourage active participation and learning.
- Promoted and facilitated participation in Waste4Meal training programs, empowering members with knowledge and income-generating opportunities.

Community Moderator

CryptoDogs.AI

May 2024 – November 2024

- Actively fostered a welcoming and engaging online environment by addressing user inquiries, moderating discussions, and encouraging participation.
- Keeping the community updated about the project milestone.
- Enforcing community guidelines to maintain a positive and inclusive atmosphere.

EDUCATION

Bachelor of Science in Computer Science

University of Ibadan, Ibadan • Ibadan, Oyo State • 2026
